Weather Key Points

Regional Operations Center

Western Region

Sunday, July 17

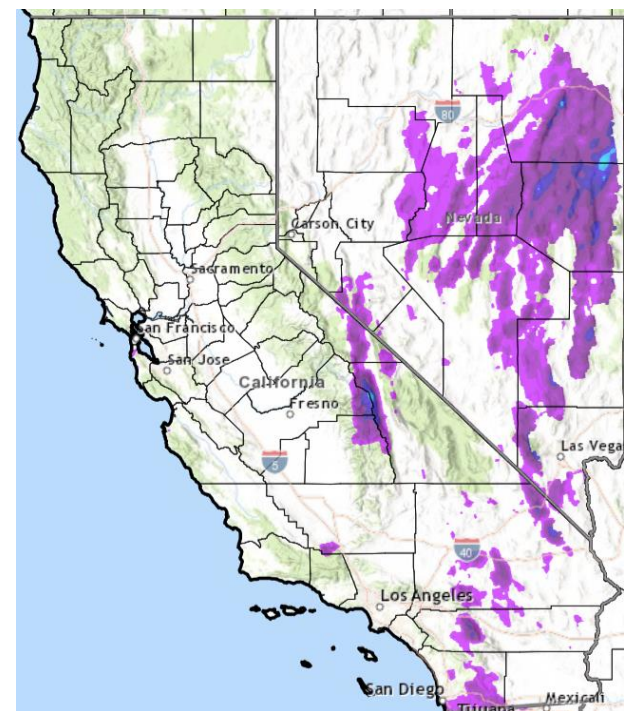

- Seasonably hot mid-July temperatures will continue for much of inland California through the first half of the week, with a cooling trend expected for the latter half of the week
 - Moderate to locally high heat risk impacts will persist each afternoon through early week, gradually becoming confined to mainly southern California by late week
 - High temperatures each afternoon will reach 95-105°F across much of the Central Valley (locally up to 110°F in portions of the San Joaquin Valley through Monday), with readings of 105-115°F common for the southern deserts
- Similar to the past few weeks, afternoon and evening breezy winds in and around the mountains, foothills, and southern deserts will bring locally elevated fire weather conditions each day through next week
 - Somewhat stronger winds (with gusts of 30-40 mph) will produce critical fire weather conditions in portions of Modoc, Siskiyou, and Lassen counties on Sunday, potentially lingering into Monday
- Scattered monsoon showers and thunderstorms are expected to form across the Sierra as well as the southern mountains and deserts through Tuesday
 - Widespread impacts from any storms are not expected, though locally heavy rainfall and gusty winds are possible where storms develop

Precipitation Forecast

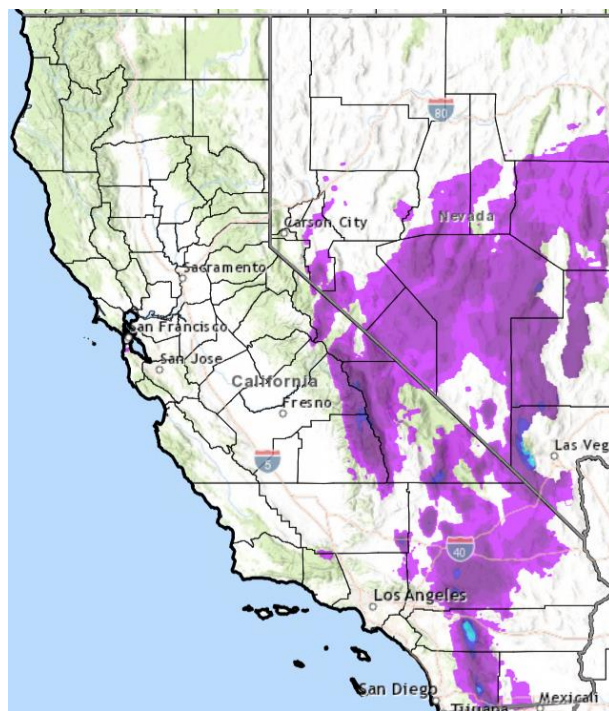

Regional Operations Center

Western Region

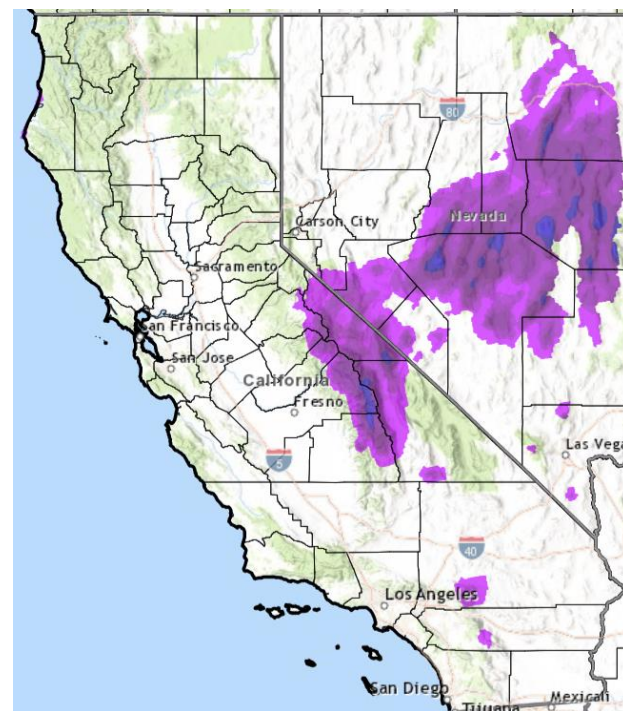

Sunday, July 17

Sunday

Monday

Tuesday

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)

Heat Risk

Regional Operations Center

Western Region

Sunday, July 17

Sunday

Monday

Tuesday

Green	Level 0	No Elevated Risk
Yellow	Level 1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	Level 2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Red	Level 3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	Level 4	Very High Risk for the entire population due to long duration heat, with little to no relief overnight

Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Sunday, July 17

6-10 Day Outlook (July 22 – July 26)

Temperatures

- Above normal temperatures are favored for the southern half of the state, with generally near normal temperatures favored for northern California

Precipitation

- Below normal precipitation is favored across far northern California, with near normal precipitation favored for the remainder of the state, except for far southeast California where above normal precipitation is favored (near the Arizona border)

8-14 Day Outlook (July 24 – July 30)

Temperatures

- Above normal temperatures are favored statewide

Precipitation

- Near normal precipitation is favored for the northern half of California, with above normal precipitation slightly favored for the southern half of the state

COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

CDPH Statewide Travel Advisory

- For more information: [CDC Travel Guidelines](#)

Confirmed California COVID-19 Cases - Per California Department of Public Health Tracking COVID-19 as of 07/13/22 at 1630 hours:

- 9,619,398 total confirmed cases.
 - 119,022 Delta
- 92,055 total deaths.
 - 260 Delta
- Please see the most recent "Situation Report - COVID-19" attachment for additional details.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Enforcement Missions

2022-LAW-80203, 07/16/22 at 1220 hours: IERCC contacted CSWC and advised of an InReach Satellite Communicator activation at coordinates 36.688510, -118.771670 which plots to the north of Jennie Lake and slightly west of Boulder Creek, Jennie Lakes Wilderness, Tulare County. The RO, a 19-year-old male hiking with two friends, reported he is “very sick”, vomiting, has stomach pain, can barely walk and has been experiencing these symptoms in excess of 12-hours. LDO contacted IERCC who provided both a data link and communications link for the incident. LDO contacted Tulare County Sheriff’s Office and provided the details including both links to the device. Tulare County Sheriff’s Office advised they’d contact their on-call SAR sergeant to handle the mission. Tulare County Sheriff’s Office advised they would provide additional details as they became available. **UPDATE:** About 1311 hours LDO contacted Tulare County who advised ground medical personnel from Fresno County were enroute and they were also attempting to locate air assets as it would likely facilitate a quicker response. **UPDATE:** About 1400 hours, Tulare County SO contacted LDO to advised CHP H40 had landed in the area. **UPDATE:** LDO later learned, due to the remote area, air crew hiked to the ill hiker’s location for extraction. **UPDATE:** CHP H40 departed at 1542 hours and arrived at an airport in Fresno at 1609 hours where the ill hiker decided to seek his own medical attention and was picked up by his family. **Mission Closed**

2022-LAW-80215, 07/16/22 at 1516 hours: IERCC contacted CSWC and advised of an InReach Satellite Communicator SOS activation at coordinates 36.70029, -118.417275 which plots to Ericsson Crags on Mount Ericsson, Kings Canyon, Tulare County, at an elevation of 13,000'. LDO contacted IERCC who verified the RO had subsequently sent a message via his satellite communicator that a 45-year-old male member of their party had been struck by lightning. IERCC contacted SEKI who advised they would respond to the remote location. LDO contacted SEKI who confirmed receipt of the information. **UPDATE:** About 1538 IERCC provided LDO updated information that the injured hiker was unable to feel his legs. **UPDATE:** About 2022 hours, LDO contacted IERCC. IERCC confirmed the last update they had was at 1800 hours where the RO advised a helicopter had landed and the patient was being medically assessed. **UPDATE:** About 2033 hours, IERCC advised the patient was transported via helicopter to the Community Regional Medical Center in Fresno for treatment. The extent of his injuries is unknown. **Mission Closed**

2022-LAW-80219, 07/16/22 at 1804 hours: AFRCC contacted CSWC and advised of a Personal Locator Beacon (PLB ACR-400) SOS activated at coordinates 36.146687, -118.399993 which plots to the Upper Kern River near Rattlesnake Creek, Golden Trout Wilderness, Tulare County. LDO contacted Tulare County Sheriff’s Office to notify them of the PLB activation. At 1817 hours, IERCC notified CSWC of an InReach Satellite Communicator activation at coordinates 36.14153, -118.410881 which plots nearby the PLB activation. The RO indicated there was an injured male who suffered from a rattlesnake bite “upstream 1 mile near Rattlesnake Creek”. LDO contacted IERCC who provided a data and communications link for the incident. While talking with IERCC, about 1837 hours, IERCC received an additional InReach Satellite Communicator activation at coordinates 36.146371, -118.399916 which plots nearby the PLB activation as well as the first InReach activation. Combining all the information, it was learned that the RO of the PLB, a 23-year-old male, was bitten by a rattlesnake and activated his PLB. Two separate good Samaritans activated their InReach devices to seek assistance for the injured male. It was learned the injured male’s breathing was labored, he suffered from cranial pressure and had swelling around the bite area. All of the information was passed along to the Tulare County SAR Coordinator who advised at 1917 hours, CHP H40 had accepted the mission and was enroute with a 40-minute ETA. Both IERCC and AFRCC were notified. **UPDATE:** At 2023 hours, IERCC advised the RO sent a message indicating the helicopter was overhead and trying to find a place to land. **UPDATE:** About 2106 hours, Tulare County Sheriff’s Office SAR Coordinator notified LDO that CHP H40 was able to retrieve the patient and landed at Kaweah Health Hospital in Visalia for assessment/treatment. Tulare advised a deputy sheriff was enroute to make contact with the victim. At 2110 hours, LDO notified IERCC. About 2300 hours, LDO updated AFRCC who closed their mission (22I6434) **Mission Closed**

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Enforcement Missions

2022-LAW-80229, 07/17/22 at 0207 hours: IERCC contacted CSWC and advised of an InReach Satellite Communicator SOS activation at coordinates 41.300611, -123.365543 which plots near the area of Salmon River Road at Nordheimer Creek Road, Nordheimer Group campsite, Six Rivers National Forest, Siskiyou County. No further details were provided. LDO contacted IERCC who advised the device is registered to the Scott's River Water Council (SRWC). IERCC said the RO is with a group of high schoolers at a campsite where a 51-year-old male suffered medical distress. IERCC advised Siskiyou County Sheriff's Office had also received 911 calls on the incident and medical assistance was enroute. LDO contacted Siskiyou County Sheriff's Office to confirm receipt of InReach activation. Siskiyou County SO advised EMSA was handling the call. Siskiyou County SO forwarded LDO to EMSA-CAL Fire dispatch who advised Salmon River Fire/EMS had responded to the campsite. An Orleans Fire Rescue EMT was also on scene camping in the area and provided assistance. CPR was performed on the individual- he was revived- and transported via ambulance to a nearby landing zone for medevac via helicopter to Providence St. Joseph Hospital, Eureka. There was no further update on his medical status. LDO update IERCC on the status of the mission. **Mission Closed.**
